This is the approved provider list for the Learner Support and Special Learning Assessment Grant.

You must choose a provider from this list. We are not accepting new providers or adding additional providers for this funding round. Providers are listed using their trading name.

Before choosing a provider, please search for the business online to check its location, services, availability and whether it is suitable for your needs or the needs of your tamaiti.
Inclusion on this list does not mean that Te Rūnanga o Ngāi Tahu endorses or recommends a particular provider or their services. Applicants should make their own enquiries before selecting a provider.
If you have previously used a tuition provider through one of our grants and do not see the provider on this list, please email us before submitting your application so we can check this for you.
