# Nohoanga Site Information Sheet

## Lake Pūkaki, South Canterbury

Lake Pūkaki camping site

### Getting there

- The site is at the bottom of Lake Pūkaki, near Twizel in the McKenzie Country.
- There are 2 entry points off SHW8, on the north side of the Lake Pūkaki dam - they are marked on the map on the next page. Drive down the gravel track until you can see the lake and fencing.
- The site has been fenced off from public vehicle access. The nohoanga site is located on the lake side of the fence. Vehicle access into the nohoanga site is through a coded padlocked, white arm gate. The code to the gate will be given with authorisations. There is signage near the entry gate.

Lake Pūkaki camping site access point

## Physical appearance

- This nohoanga is on the shores of Lake Pūkaki with excellent views of Aoraki.
- Large and flat area, with some uneven and sloping areas. The site is rocky in places.
- During periods of heavy rain some areas on the flat may become boggy.
- As a result of heavy use by the general public, much of the site has turned into dirt road tracks. Limiting the public vehicle access, and a future planting plan, will help to promote more growth for a better site.

## Vehicle access and parking

- The site has great vehicle access for all vehicle types. Users must keep the road clear.

## Facilities and services

- There are public toilet facilities located near the nohoanga site. Site users will need to provide their own shower facilities.
- Nohoanga site users are required to provide their own water supplies.
- There is limited cell phone reception on this site.
- All rubbish and waste must be removed on departure. See key contacts below for details of refuse and dumping stations.

### ! Hazards

- Each year LINZ undertakes biosecurity works around Lake Pūkaki, including pest control in the form of rabbit shooting. This work generally occurs during the winter months, outside of our nohoanga entitlement occupation times, but can happen during the nohoanga season. When shooting is planned, LINZ contacts Te Rūnanga o Ngāi Tahu so we can notify them of any campers, and they can reschedule their work if necessary. It is therefore vital to ensure you have a permit to stay on the site, so we are always aware of any campers.
- This area has a tsunami warning in place for Lake Pūkaki. Information can be found on the Environment Canterbury website and signage is opposite the toilet block at Lake Pūkaki.
- Some rivers, lakes or waterways may have health warnings applied to them throughout the year for toxic algae and bacteria such as benthic cyanobacteria. Regional and District Councils will have up to date information on their websites regarding any waterway health warnings in place.
- Visit the Ngāi Tahu website [www.ngaitahu.iwi.nz/environment/nohoanga](http://www.ngaitahu.iwi.nz/environment/nohoanga) for information regarding hazards.
